---

Luis,

Just to follow up on the phone call. Yes – they are logged in for TO-15 SIM.

**Subject:** RE: Lab Assignment: Wilcox Oil - Wk of 9/19/16

Hi Christy

The lab assignment indicates **TO-15** analysis of 13 air samples. Would it be possible to have our air samples analyzed for **TO-15 SIM analysis**? Sub-slab samples would be pre-screened at the lab to determine if regular TO-15 analysis is more appropriate (elevated VOC levels).

We intend to collect the following sample quantities:

- 5 indoor air samples (including 1 field duplicate)
- 4 sub-slab (including 1 field duplicate) air samples
- 1 crawlspace air sample
- 2 outdoor air samples
- TOTAL OF 12 AIR SAMPLES.

FedEx is still working to get the 13<sup>th</sup> Summa canister/Keal case redirected to us in Tulsa from Ft. Worth, so we do not anticipate collecting a field duplicate for outdoor air.

Thanks

**Luis Vega**

Attached is the lab assignment information for the VOA, EDB, Total Metals + Hg, Hexavalent Chromium, Cyanide, and TO-15 samples being collected at Wilcox Oil the week of September 19.

Please let me know what day or days of the week the Region 6 Lab should expect to receive these samples.

If you have any questions regarding these analyses please let me know.
